REPORT

Details of Activity:

Name of the Activity	Alumni Talk on "Guidance on Pathway from Problem Statement to Paper or Product"		
Date & Time	01/08/2026, 10:56 AM	Department Committee	Department of Artificial Intelligence and Machine Learning (AIML)
Venue	Autocad Lab	No. of Participants	45
Nature of Activity	Alumni Expert Talk / Academic & Career Guidance Session	Mode of Activity	Offline
Name of Activity In-charge	Dr. Juily Tarade	Name of Activity Coordinator	Dr. Juily Tarade
Name and Affiliation of Resource person	Mr. Tanish Mhatre, BE AIML Alumni, Passout 2026; currently pursuing further studies		

Activity Information:

Objectives	• To provide students with practical guidance about their academic and professional journey. • To guide students in identifying a suitable and meaningful problem statement. • To help students understand how a problem statement can be developed into a research paper or a useful product. • To develop awareness about the importance of technical, problem-solving and research skills for future academic and professional growth.
Target Audience	BE AIML Students
Methodology	The session was conducted as an interactive alumni talk. The resource person shared experiences and guidance on identifying meaningful problem statements, conducting research, understanding existing solutions, and developing ideas into research papers or practical products. Students were also guided on projects, skill development, areas of interest, and future academic and career planning, followed by interaction with the alumni.
Outcome	• Students gained a better understanding of how an initial idea or problem can be developed into a meaningful research outcome or product. • Students understood the importance of research, practical implementation and skill development. • Students were encouraged to explore their interests and work on meaningful projects. • Students received guidance for planning their future academic and professional journey.

NAAC Accredited with Grade 'A+', Three Programs NBA Accredited

SWOT Analysis of the Event:

Strength	Weakness	Opportunity	Threats
Alumni interaction; relevant guidance on research and product development; practical and student-focused topic.	Limited time may restrict detailed discussion of individual student ideas and projects.	Future alumni mentoring, research guidance, project collaboration and academic opportunities.	Students may not consistently follow through on research or project work without continued guidance.
