1. Introduction:

The SPCA Committee of the Computer Engineering Department organized an engaging and competitive event titled "Monkey Typing" on Wednesday, 23rd July 2025. The objective of this event was to test and enhance the typing speed and accuracy of students in a fun and challenging way.

2. Event Overview:

The event was conducted in Lab 1 and CCA Lab from 2:15 PM to 4:15 PM. Students from all years enthusiastically participated, showcasing their typing skills under time pressure and accuracy benchmarks.

3. Format of the Event:

- Participants were given a set of randomized text passages to type within a limited time.
- Scoring was based on both speed (words per minute) and accuracy (error rate).
- Top scorers were shortlisted for the final round.

- The final round included a competitive face-off with more complex text to determine the winners.

4. Participation and Response:

- The event witnessed participation from over 60 students.
- The response was overwhelmingly positive, with participants enjoying the unique blend of fun and skill.
- The labs were well-prepared with all necessary arrangements including power backup, internet access, and event coordination volunteers.

5. Outcome and Winners:

Three winners were selected based on their final scores:

- **1st Prize:** Harsh Patil
- **2nd Prize:** Anish Naik
- **3rd Prize:** Rishabh Vaishnav

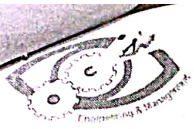

Certificates were distributed to the winners and all participants received e-certificates of participation.

6. Conclusion:

The "Monkey Typing" event was a successful initiative by the SPCA Committee to promote digital dexterity and healthy competition among students. The well-organized setup, active involvement of coordinators, and enthusiastic participation made the event a memorable experience for all.
