

Industrial Visit Report

Title: Industrial Visit to Testriq QA Lab

Date: 23 August 2024

◆ Introduction

The industrial visit to Testriq QA Lab was organized to provide students with practical exposure to real-world quality assurance (QA) processes in the software industry. The visit aimed to bridge the gap between academic learning and industry practices.

◆ Objective

The main objective of the visit was to gain insights into quality assurance processes and understand the role of data visualization in software testing and decision-making.

◆ Activities During the Visit

During the visit, participants were introduced to various QA methodologies, tools, and workflows used in the industry. Experts demonstrated how software testing is carried out to ensure product quality. Sessions also highlighted the importance of data visualization in analyzing testing data, identifying defects, and improving efficiency.

◆ Learning Outcomes

- Gained practical knowledge of QA processes
- Understood the importance of software testing in development
- Learned how data visualization helps in identifying patterns and errors
- Got exposure to real-time tools and technologies used in the industry

◆ Experience & Observations

The visit was informative and engaging, providing valuable insights into the working environment of a QA lab. Interaction with professionals helped in understanding industry expectations and career opportunities in QA and data analytics.

St. John College of Engineering and Management

Autonomous Institute

(A Christian Religious Minority Institution)

Approved by AICTE and DTE, Affiliated to University of Mumbai / MSBTE

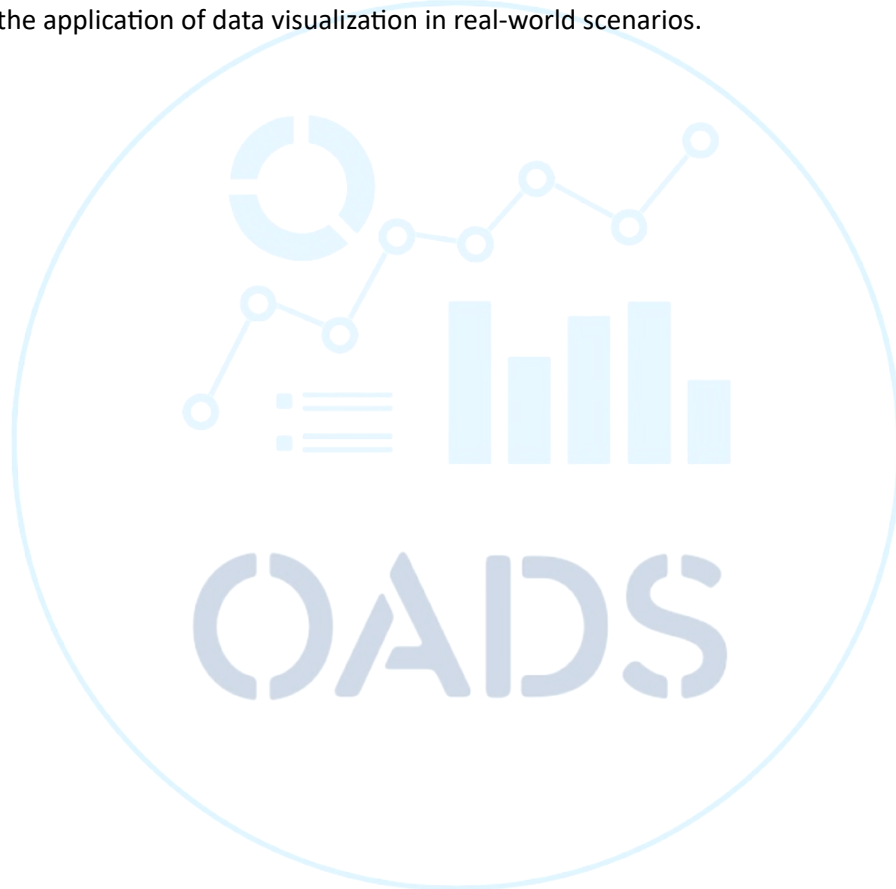

DTE Code : 3218 AICTE Permanent ID : 1-4790201

NAAC Accredited with Grade 'A+', Three Programs NBA Accredited

◆ Conclusion

The industrial visit to Testriq QA Lab was a valuable learning experience. It enhanced our understanding of quality assurance practices and the application of data visualization in real-world scenarios.
