Alumni Talk Report

Event Title: Alumni Talk: Career Opportunities in the Designing Field

Date: 10th July 2024

Time: 11:00 AM - 12:00 PM

Venue: Class Room No. 1

Organizer: Mr. Ajay Sirsat, Assistant Professor, Department of Computer Engineering

Speaker: Rahul Rane, Product Designer, Human X, Mumbai

Audience: BE Final Year Students

Introduction

On 10th July 2024, the Department of Computer Engineering organized an Alumni Talk on career opportunities in the designing field. The event aimed to provide final-year BE students with insights into the designing field, including career prospects, required skills, and industry trends. The session featured Rahul Rane, a distinguished alumnus and Product Designer at Human X, Mumbai.

Speaker Profile

Rahul Rane is an accomplished product designer with extensive experience in the industry. As a Product Designer at Human X, Mumbai, he has been involved in various innovative projects, contributing to the company's success through his expertise in user experience and interface design. His journey from a student to a successful professional served as an inspiration to the attendees.

Key Highlights

1. Introduction to Designing Field:

- Rahul provided an overview of the designing field, emphasizing its importance in the current market.
- He discussed various branches of design, including product design, UX/UI design, graphic design, and industrial design.

2. Career Opportunities:

St. John College of Engineering and Management

Autonomous Institute

(A Christian Religious Minority Institution)

Approved by AICTE and DTE, Affiliated to University of Mumbai / MSBTE

DTE Code : 3218 AICTE Permanent ID : 1-4790201

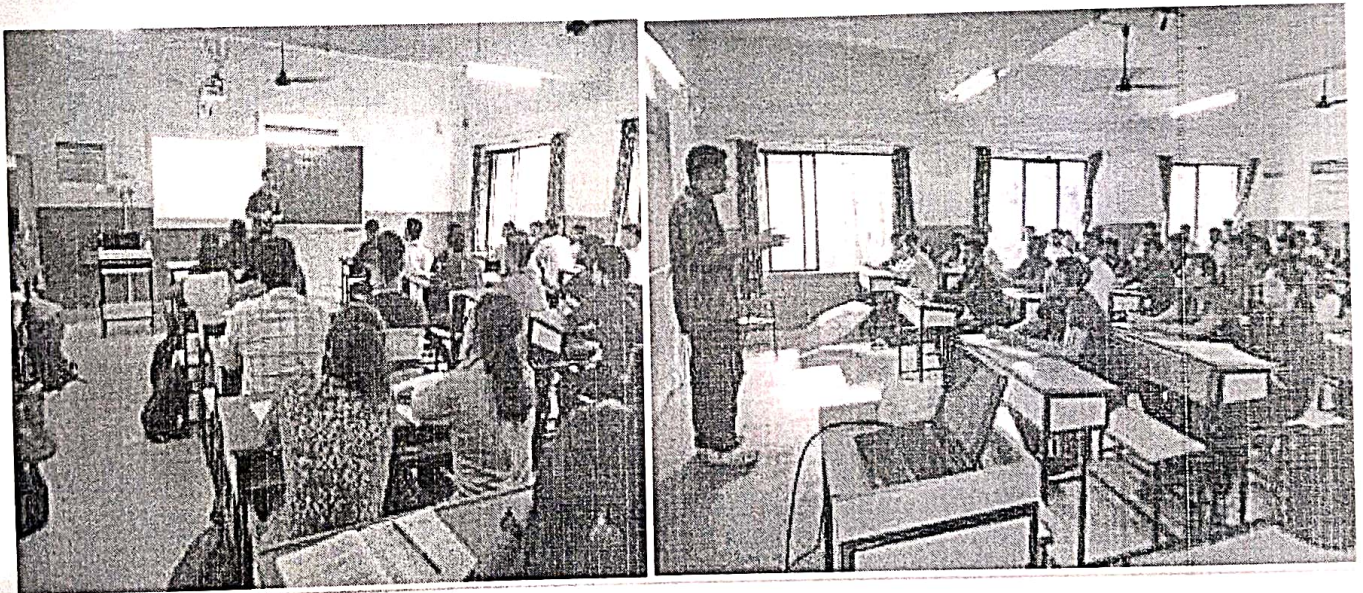

NAAC Accredited with Grade 'A+', Three Programs NBA Accredited

- Detailed explanation of potential career paths in designing, highlighting roles such as Product Designer, UX/UI Designer, Graphic Designer, and Interaction Designer.
- Insights into the demand for designers in various industries, including technology, healthcare, finance, and entertainment.

3. Skills and Competencies:

- Rahul emphasized the essential skills required for a successful career in design, such as creativity, problem-solving, technical proficiency, and communication skills.
- He shared tips on how students can develop these skills through courses, projects, internships, and self-learning.

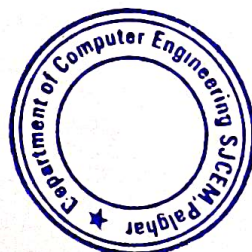

Mr. Rahul Rane sharing experience to students.

4. Industry Trends:

- An overview of current and emerging trends in the design industry, such as the increasing focus on user experience, the rise of AI and machine learning in design, and the importance of sustainability.
- Rahul also discussed the impact of technology on design processes and how designers need to adapt to these changes.

5. Q&A Session:

- The interactive Q&A session allowed students to ask questions and seek advice from Rahul.

St. John College of Engineering and Management

Autonomous Institute

(A Christian Religious Minority Institution)

Approved by AICTE and DTE, Affiliated to University of Mumbai / MSBTE

DTE Code : 3218 AICTE Permanent ID : 1-4790201

NAAC Accredited with Grade 'A+', Three Programs NBA Accredited

- Topics ranged from portfolio building and job search strategies to specific design tools and software.

Conclusion

The Alumni Talk by Rahul Rane was highly informative and engaging. It provided final-year BE students with valuable insights into the designing field, helping them understand the various career opportunities and skills required to succeed. The event was well-received, with students expressing their appreciation for the practical advice and industry knowledge shared by Rahul.

Feedback

- Students found the session to be highly relevant and motivating.
- Many appreciated the real-world examples and practical tips provided by the speaker.
- Suggestions were made for organizing similar sessions with professionals from other fields to broaden the scope of career guidance.

Acknowledgments

We extend our sincere gratitude to Rahul Rane for taking the time to share his knowledge and experiences with our students. We also thank the faculty members and students who helped organize and coordinate the event, ensuring its success.

Recommendations

Recommend Rahul

Received Given

Shraddha Rashmi · 2nd

Product Design @ Fello | Crafting scalable UX for CRM & Lead Gen Tools,
Powered by AI
April 27, 2025, Shraddha managed Rahul directly

I had the privilege of working closely with Rahul at HumanX, where he quickly proved what an invaluable asset he is to the team. Throughout our time working together, I watched Rahul grow tremendously, not just in technical skills, but in his overall approach to problem-solving, collaboration, and leadership within projects. What stood out immediately was his growth mindset. He constantly sought feedback, leveled up with every project, and **Yash Chavhan** Product thinking with genuine empathy for users. Rahul is **Product Design @ Eureka** a collaborative, whether it was working with engineers,...

April 25, 2025, Yash was senior to Rahul but didn't manage Rahul directly

I had the pleasure of working with Rahul on high-impact projects for Amazon during my time at HumanX. Rahul is a hardworking and thoughtful designer with a strong ability to understand requirements quickly and translate them into efficient, well-executed designs.

What stands out most about Rahul is his collaborative spirit—he genuinely enjoys working with cross-functional teams and is always open to feedback and discussion. At the same time, he's not afraid to push back when it...

Edunet Foundation – AICTE Internship Offer Letter

Dear Mr./Ms. **Yash Ritesh Chaudhary**

Student ID: STU62d3e36f687871658053487 Internship ID: INTERNSHIP_17465167156819baeb7bffe

Date: 18th Jun 2025

We would like to congratulate you on being selected for an internship brought to you by the Edunet Foundation, leveraging the SkillsBuild Program on **Artificial Intelligence & Machine Learning (AIML)**. As an intern, you will learn and demonstrate skills that will enhance your employability and your confidence in the subject area.

SkillsBuild is an e-learning platform that helps job seekers gain the foundational skills necessary to prepare for entry-level positions while earning credentials and receiving guidance for industry experts at no cost.

We are pleased to offer you an Edunet Foundation internship for a period of 6 weeks beginning from **18th June 2025 to 30th July 2025**.

During this internship, you will work independently on a project and be assigned a mentor who will guide you to identify a solution to the problem and develop it into a project. The internship will provide the following benefits:

- Access to SkillsBuild e-learning Platform with over 80,000 curated courses on technical and professional skills
- Opportunity to accelerate your learning in project-based, collaborative environments
- Learners can experience masterclasses led by Subject Matter Experts
- Showcase your skills by solving real-world challenges
- Certification from AICTE and Edunet to enhance your value to future employers

Timeline and project:

The structure of the Edunet Foundation internship camp is as follows:

Week	Agenda	Student Deliverables
Week 1	Orientation of Internship and Skills Build Platform	<ul style="list-style-type: none"> • Registration on SkillsBuild using Gmail ID • Exploring SkillsBuild and Learning Plan for the respective domain
Week 2	Technical Session, Project Topic	<ul style="list-style-type: none"> • Commence Project Related tasks • Self-paced Learning
Week 3	Technical Session, Common Q&A form	<ul style="list-style-type: none"> • Project related tasks • Self-paced learning • Share queries via Q&A form • Attendance to Mentor-led query resolution sessions
Week 4	Technical Session, Query Resolution	
Week 5	Project Completion and Submission Q&A	<ul style="list-style-type: none"> • Project Completion • Self-Paced Learning completion • Creation of Project Presentation
Week 6	Project Submission (PPT)	

Criteria for certification:

- Participation in weekly sessions with mentors is mandatory
- Completion of tasks/milestones on a weekly basis
- Completion of learning plan on SkillsBuild
- Submission of a project presentation required

Stipend:

There will be NO stipend for this internship. If you agree to the above terms of the offer, please indicate acceptance of the offer letter and below undertaking to the undersigned.

Sincerely,
Nagesh Singh
Chairman – Edunet Foundation

Undertaking Agreement

I, **Yash Ritesh Chaudhary** from **St John College Of Engineering And Management** who is undergoing an internship at Edunet Foundation, do hereby undertake on **18th June 2025** the following:

1. I will be present at the weekly sessions conducted virtually, as organized by the mentor and team, to undertake the courses assigned to me for the duration of the internship. I will communicate to the mentor and team should there be any reason or inability to be present.
2. I will communicate regularly with the said mentor on the courses' progress.
3. I declare that I will ensure the timely submission of the project and will deliver a presentation within the stipulated time to complete the internship and earn a certificate.
4. I will adhere to and maintain the decorum of weekly sessions conducted virtually and will not be involved in any disciplinary practice during the same and abide by ethical standards followed by Edunet Foundation under SkillsBuild program.
5. I declare that my internship with Edunet Foundation shall be terminated at any stage on the grounds of:
 - Absenteeism from masterclasses and mentor-led sessions
 - Not in touch with mentor
 - Mentor identifies that there is no progress on project
 - Not reachable by Edunet Foundation
6. I further declare that my internship shall be terminated forthwith at any stage, misbehaviour, inciting hatred, indiscipline, habitual insubordination etc. or on grounds of misconduct etc. as came to the notice of Edunet Foundation.

Sincerely,

Internship Title: EDUNET FOUNDATION - IBM SKILLSBUILD - ARTIFICIAL INTELLIGENCE - 6 WEEKS INTERNSHIP JUNE 2025 BATCH

Dated: 28/Mar/2025

Nilaksh Chaudhari
Mumbai
Mob: 7972396329

Subject: Offer of Internship at Learning Evolution Solutions Pvt. Ltd.

Dear Nilaksh,

It is with pleasure that we offer you the 'Software Development Internship' with Learning Evolution Solutions Private Limited and its associated projects for a minimum period of 03 months, starting 1/04/2025. This letter of offer is subject to no adverse information being uncovered later during reference checking or otherwise. Further, the internship can be terminated 'at will' basis from either party by giving one week notice.

For this internship, you will be given a fixed stipend of Rs.15,000/- (Rs. Fifteen Thousand only), payable on completion of the month subject to regular working as per Company policies. The company allows 'Work from anywhere' during Internship period but you will be required to have daily minimum 'log in' of 9 hours. This being an initial start-up phase of the Company, you may be required to support operations beyond 5-day work week schedule as informed time to time. You will be entitled to 1 (one) leave per month, during the internship period.

During this internship period and thereafter, you will be bound by the terms of the Proprietary Information Agreement with "LES" (Annexure I). To confirm your acceptance of this offer, please sign each page and return this Internship offer document, along with the Proprietary Information Agreement.

As I am sure you will appreciate, the information contained herein and thereafter in your day to day working, is confidential between yourself and Learning Evolution Solutions Pvt. Ltd. and we urge that you always maintain this confidentiality.

We look forward to welcoming you to Learning Evolution Solutions Pvt. Ltd.

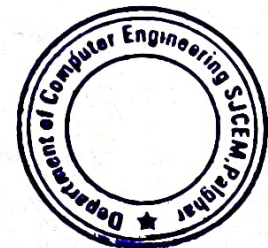

Yours sincerely

(Deepika Goel)

Date & Time	4th February 2025	Department / Committee	Information Technology / ITSA
Venue	Auditorium, SJCEM	No. of Participants	250
Nature of Activity	Seminar	Mode of Activity	Hybrid (Online /offline)
Name of Activity In-charge	Mrs. Maya Patil	Name of Activity Coordinator	Mr. Sharvil Patil Mr. Raj Dudhara
Name and Affiliation of Resource person	Dr. Adithya Vivek (Research Head, Frontier Tech, Web3 Strategist) Mr. Sharmil Raj (Campaign Head, MAAN) Ms. Anjali Dubey (Community Manager, Coral App)		

SWOT Analysis of the Event:

Strength	Weakness	Opportunity	Threat
1. Renowned Speakers	1. Tech Stack Challenges	1. Growing Web3 Market	1. Regulatory Uncertainty
2. Diverse Audience	2. Limited Hands-on Experience	2. Potential Collaborations	2. Lack of Awareness
3. Industry Relevance		3. Skill Development	
4. Engagement & Interaction			

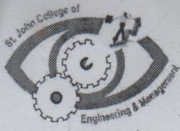

Activity Information:

Objectives	<ul style="list-style-type: none"> To explore India's role and potential in the Web3 revolution. To discuss the impact of blockchain, decentralized finance (DeFi), and NFTs on India's digital economy. To highlight career opportunities in Web3 for students and professionals. To analyze challenges and government policies related to Web3 adoption in India.
Target Audience	Students, faculty members, industry professionals, and Web3 enthusiasts interested in blockchain technology, decentralized applications (dApps), and digital finance.
Methodology	<ul style="list-style-type: none"> Expert Talks: Speakers provided insights into Web3 trends, India's blockchain adoption, and global perspectives. Live Demonstrations: Practical examples of blockchain-based applications were discussed. Interactive Q&A Session: Participants engaged with the experts to clarify doubts and explore opportunities. Panel Discussion: Industry leaders debated India's policy framework and regulatory challenges in Web3.
Outcomes	<ul style="list-style-type: none"> Enhanced Awareness: Participants gained a clear understanding of Web3 technologies and India's role in shaping the future of decentralized internet. Career Guidance: Students received insights into Web3-based job roles and startups. Networking Opportunities: Attendees connected with Web3 professionals and communities. Practical Exposure: Real-world use cases and industry applications were discussed, helping participants align their skills with future job demands.

SWOT Analysis of the Event:

Strength	Weakness	Opportunity	Threats
1. Renowned Speakers 2. Diverse Audience 3. Industry Relevance 4. Engagement & Interaction	1. Technical Challenges 2. Limited Hands-on Experience	1. Growing Web3 Market 2. Potential Collaborations 3. Skill Development	1. Regulatory Uncertainty 2. Lack Of Awareness

SUPREMUS ANGEL
— Unlock The Power of Pre-IPO —

Owned By : Forevercare India Private Limited

Date: 19th May 2025

To,
Mr. Mahesh Tandel,

Subject: Offer Letter

Dear Mahesh,

We are delighted to extend an offer of employment to you for the position of **Business Development Associate** at **Supremus Angel** operated by "**Forevercare INDIA PVT LTD**" effective from **19th May 2025**. Following your application and successful interview, we believe that your skills and experience make you Excellent fit for our organization.

We are pleased to confirm the main terms of your employment:

Position: **Business Development Associate**

Date of Joining: **19th May 2025**

Location: **322, 3rd Floor, Lodha Supremus Tower - 2, Wagle Estate Thane 400 604**

Annual Cost to Company: **₹ 3,60,000/-**

As discussed during the final round, your employment terms including salary and position are contingent upon meeting specific performance expectations, particularly in driving business growth and revenue generation. These expectations, along with detailed salary justification mentioned in following page along with your Salary breakup. The appointment Letter will be provided to you after one week from your date of joining.

Your active engagement and dedication to our business development are crucial, and we are confident in your ability to contribute significantly to our shared success. Decisions regarding any potential salary increase will be made by management based on your ability to meet these expectations. We value your contributions and look forward to your continued efforts toward the company's growth and success.

Cost to company (CTC): - Your compensation in terms of "Cost to the company (CTC)" and detailed breakup will be as per attached annexure A. The compensation structure is decided by the company policy applicable to all employees and is subject to change, upon any change in company policy from time to time.

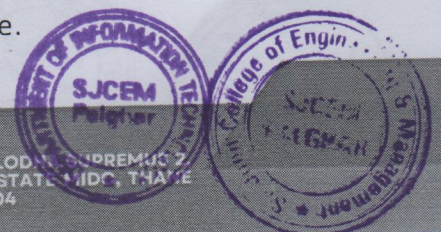

Probation and Performance: - You will be on probation for **six months** from your joining date, which is **19th May 2025**. Your performance will be evaluated after six months, and upon successful completion of your probation period, you will receive a confirmation letter. If at any point during the probation period you wish to discontinue your services, you will be required to serve a notice period of **30 days**. Additionally, after the performance evaluation, the company reserves the right to terminate your employment at any time.

Event Report

Career Guidance

Conducted by Information Technology Students' Association (ITSA)

Date: 29/07/2024

Time: 2:15 p.m. to 3:15 p.m.

Venue: SE-IT Classroom

Total Participants: 42

Resource Person: Mr. Raunak Mitra | Python Developer

Event Outcomes

1. Efficient Data Visualization and Analytics
2. Seamless Integration and Connectivity
3. Scalability and Accessibility
4. Enhanced Decision-Making and Collaboration

On July 29th, ITSA organized an insightful expert talk focused on career guidance specifically tailored for second-year students. The session was led by Mr. Raunak Mitra, a distinguished professional with extensive experience in the field. Mr. Mitra began the talk by offering reassuring advice, encouraging students not to worry excessively about having KTs in their second year. Drawing from his own experiences, he revealed that he had faced a similar challenge, having accumulated six KTs during his college years. His personal anecdote served as a reminder that such setbacks are common and manageable.

✓

Following this, Mr. Mitra delved into the significance of specializing in one programming language rather than being average at multiple languages. He argued that achieving proficiency in a single language can be more advantageous than having a superficial understanding of several. This focused approach not only enhances one's skill set but also increases employability and effectiveness in the industry.

Mr. Mitra also highlighted several critical issues that students should be vigilant about. He discussed the prevalence of scams on LinkedIn and cautioned against the deceptive marketing practices often used to promote online courses. His insights aimed to equip students with the knowledge to make informed decisions and avoid potential pitfalls in their career journey.

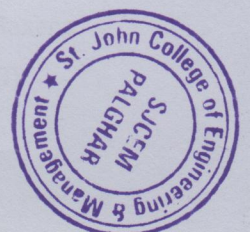

The session concluded with an interactive Q&A segment, where students had the opportunity to pose questions and clarify any doubts they might have had. This closing segment was particularly valuable as it allowed for personalized guidance and further engagement with the speaker. Overall, the expert talk was both informative and encouraging, providing second-year students with practical advice and strategies to navigate their career paths effectively.

Above employment rules are subject to change without consulting the employee at any time at the discretion of management. Any change in rules will be communicated to the employee either in writing or by displaying it on the notice board in the office. Decision of the Management will be final for any matter which is not covered in this letter.

In the capacity of an employee, you will maintain high standard of discipline, efficiency, integrity and supervise the subordinates. It should be clearly understood that your assignment or work can be changed or altered whenever necessary at the discretion of the management to suit any new developments or requirements of the company on the same terms and conditions, without any additional benefits.

Confidentiality and Non-Disparagement Clause: -

As part of your employment with **Supremus Angel**, you will have access to confidential and proprietary information. You are expected to maintain the confidentiality of all such information, including but not limited to business operations, client details, internal communications, and any data not publicly available. This obligation continues during and after your employment.

Additionally, you agree not to make any statements—whether verbal, written, or published in any form—that could be considered defamatory, misleading, or damaging to the reputation or public image of the Company, its management, employees, clients, or business partners.

Any breach of these obligations may result in disciplinary action, including termination of employment, and may also lead to legal consequences.

We look forward to a long and fruitful association with you. Kindly acknowledge the copy as an acceptance of the offer letter.

Yours Faithfully
Forevercare India Pvt. Ltd

Hi Sunny

Congratulations! Further to your application for employment with us, and the subsequent selection process, we are delighted to confirm your position as Software Developer at LeanQubit Pvt. Ltd starting from 13th June, 2025.

Your employment will be governed by the rules, regulations and policies of the company. As per the terms of employment, you will be on probation for the first six months with a performance evaluation scheduled every month. In the event if your performance is not found satisfactory during these evaluations, the company reserves the right to terminate your employment without any applicable notice period. While on probation, you will not be entitled to any paid leave, however, you can avail unpaid leave with prior approval.

After completion of the probation period, you will be entitled to 1.25 paid leaves per month accumulated at the end of every month. If you decide to leave the company after probation, you will be expected to provide a non-negotiable notice of two months from the date of your resignation.

Your annual CTC is fixed at ₹ 180,000/- (Rupees One Lakh Eighty Thousand Only) The breakup of your salary will be available in your salary slip.

Please deposit the digital copies of the following documents with us at your earliest in order to process your onboarding:

- | | | | | | |
|---------------------|-------------------------|--|--|-------------------------------------|-----------------------------------|

Event Report

Harnessing the power of Blockchain and AI

Conducted by Information Technology Students' Association (ITSA)

Date: 30/08/24

Time: 11:15 a.m. to 1:15 p.m.

Venue: Main Auditorium

Total Participants: 145

Resource Person: Mr. Jetso Analin | CEO, Web5 Nexus | Director, Block Intelligence

Event Outcomes

- 1. Enhanced Career Clarity**
- 2. Improved Knowledge of Development Processes**
- 3. Expanded Professional Insights, Enhanced Technical Skills**
- 4. Interactive Learning Experience**

The event "Harnessing the Power of Blockchain and AI" organized in collaboration by the Information Technology Students Association (ITSA) and the Association of Students for Computing and Artificial Intelligence (ASCAI), took place on 30th August 2024. Featuring expert speaker Mr. Jetso Analin, the event attracted an audience of tech professionals and students eager to explore the transformative potential of integrating blockchain technology with artificial intelligence (AI).

Mr. Analin opened the session by discussing the origins of blockchain, explaining why it was invented and why it is considered so secure. He provided a comprehensive overview of the technology's history, focusing on its decentralized nature and the cryptographic principles that underpin its safety.

Signature
Principal
St. John College of Engineering & Management
Pune

He also presented real-world case studies, including the WazirX cyberattack, where the company lost a significant portion of its assets. This example highlighted some of the vulnerabilities in blockchain systems and sparked a discussion on the challenges and areas for improvement in blockchain security. Mr. Analin also explored the potential of blockchain across various sectors, such as finance, healthcare, and supply chain management, emphasizing its capacity for innovation but also the need for ongoing refinement and security enhancements.

The Q&A session that followed allowed participants to engage directly with Mr. Analin, fostering an interactive environment where attendees could pose specific questions and discuss their interests in greater depth. This dialogue was particularly enriching, as it enabled participants to connect the insights shared during the talk to their own experiences and industry contexts.

Overall, the event was a resounding success, bringing together a diverse group of professionals, students, and industry experts. It fostered an environment of collaboration and knowledge-sharing, where participants could deepen their understanding of both blockchain and AI, as well as their potential applications across various fields. The insightful discussions and case studies presented by Mr. Analin sparked meaningful conversations about the future of these technologies and the challenges they face. The interactive Q&A session further enriched the experience, allowing attendees to engage with the topic in a more personal and direct way. In the end, the event not only educated and inspired but also helped build stronger connections within the tech community, encouraging continued exploration of how blockchain and AI can transform industries.

Dear Madam,

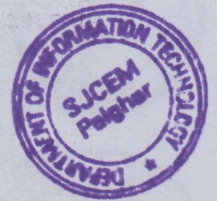

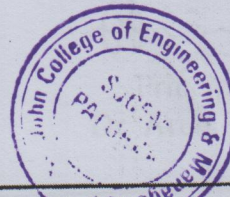

With reference to your application and subsequent interview held on **26/06/2025** for the post of **Assistant Professor**, we have pleasure to inform you that, you are hereby selected for the above post in **Computer Science & Engineering (Artificial Intelligence & Machine Learning) Department**.

Kindly communicate your acceptance.

Thanking You,

Yours faithfully,

30.6.25

Subject : Letter of Appointment.

Dear Madam,

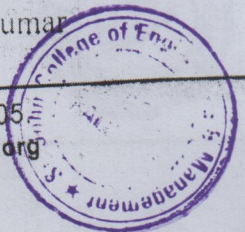

This has reference to your application for the post of Assistant Professor in **Computer Science & Engineering (Artificial Intelligence & Machine Learning) Department** of our VIVA Institute of Technology and your subsequent interview before the committee.

I am pleased to inform you that you have been appointed as **Assistant Professor in Computer Science & Engineering (Artificial Intelligence & Machine Learning) Department**, VIVA Institute of Technology on regular basis. Salary will be as per your qualification, experience and norms of Government of Maharashtra.

Your appointment is made subject to approval of the University of Mumbai, and rules and regulations as prescribed by the government of Maharashtra.

Please communicate your acceptance.

30-6-25

REPORT

Details of Activity:

Name of the Activity	Guest Lecture on Skills to Improve Employability		
Date & Time	31st August 2024	Department / Committee	Mechanical Engineering Department / Training and Placement Cell
Venue	Seminar Hall, St. John College of Engineering and Management	No. of Participants	74
Nature of Activity	Guest Lecture	Mode of Activity	Offline
Name of Activity In-charge	Mr. Uday Prajapati	Name of Activity Coordinator	Mr. Uday Prajapati
Name and Affiliation of Resource person	Mr. Gagan Parashar, Tata Steel		

Activity Information:

Objectives	To enhance the employability skills of students. To bridge the gap between academic knowledge and industry requirements. To guide students on expectations from recruiters and industry readiness.
Target Audience	Final Year and Pre-final Year Mechanical Engineering Students
Methodology	Expert talk by Mr. Gagan Parashar from Tata Steel. - Real-life case examples and industry insights. - Interactive Q&A session with students.
Outcomes	Students gained valuable knowledge on employability enhancement. - Insights into current industry trends and required soft/technical skills. - Boost in student confidence for placement preparation.

SWOT Analysis of the Event:

Strength	Weakness	Opportunity	Threats
<ul style="list-style-type: none">- Experienced speaker from a reputed organization (Tata Steel)- Interactive and insightful session- Strong student participation	<p>Limited time for detailed interaction</p>	<p>Scope for future workshops or mock interviews</p> <ul style="list-style-type: none">- Opportunity to connect with industry professionals <p>Threats:</p> <ul style="list-style-type: none">- Scheduling conflicts with academic sessions	<p>Scheduling conflicts with academic sessions</p>

Feedback Analysis:

The session was highly informative and relevant to current industry expectations.

Students appreciated the practical insights shared by the speaker.

The interactive nature of the session kept participants engaged throughout.

Suggestions were made to organize similar sessions with hands-on training or mock interviews.

Overall, the session received very positive feedback with a high level of satisfaction among attendees.

DEPARTMENT OF MECHANICAL ENGINEERING

DATE: 11/09/2024

Notice

All Second Year (SE) and Third Year (TE) students of the Mechanical Engineering Department are hereby informed that a seminar on the GATE (Graduate Aptitude Test in Engineering) examination will be conducted to help students understand its importance, benefits, and preparation strategies.

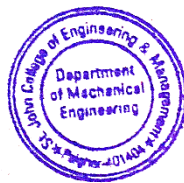

- ◆ Topic: Importance and Benefits of GATE Examination
- ◆ Date: 13th September 2024
- ◆ Time: 11:00 AM to 12:30 PM
- ◆ Venue: Class Room B-10

The seminar is compulsory for all SE and TE students. Attendance will be recorded.

This is a valuable opportunity for students to gain awareness and plan for a successful future through GATE.

Guest Lecture Report on "Piping Design for Industrial Applications" Academic Year: 2024-25

Title: Session on Awareness future prospects in Piping Engineering.

Date of Guest Lecture: 08/04/2025

Speaker:

Mr. Parag Kundaickar

(SPK Engineering Consultancy)

Objective of the Seminar:

The primary objective of the seminar was to provide students with a comprehensive understanding of piping design, its significance in industrial systems, and the role of mechanical engineers in ensuring safe, efficient, and cost-effective piping solutions. The session aimed to bridge the gap between academic learning and practical industrial applications, preparing students for real-world challenges in the field of plant design, oil & gas, power, and manufacturing industries.

Key Topics Covered:

1. Introduction to Piping Design

- Importance and scope in mechanical and process industries.
- Role of piping engineers in plant design and safety.

2. Types of Piping Systems

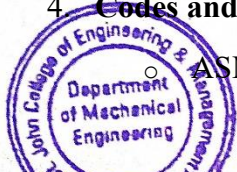

- Classification based on application: process piping, utility piping, HVAC piping, etc.
- Materials used for different applications (carbon steel, stainless steel, PVC, etc.)

3. Design Considerations

- Flow rate, pressure, temperature, and pipe sizing.
- Stress analysis and flexibility analysis.
- Pipe routing and layout strategies.

4. Codes and Standards

- ASME B31.1, B31.3, ASTM, API, and other global piping standards.

- Importance of adhering to industry standards in design and fabrication.

5. Software Tools Used in Industry

- Introduction to CAESAR II, AutoCAD Plant 3D, PDMS, and other design software.

6. Case Studies and Industrial Insights

- Real-life examples of piping design failures and best practices.
- Importance of interdisciplinary coordination in piping design projects.

Outcome and Benefits for Students:

- Students gained valuable insights into industrial piping systems, a core aspect of mechanical engineering.
 - Enhanced understanding of the design process, technical calculations, and practical implementation.
 - Exposure to modern software tools and industry standards.
 - Awareness of career opportunities in the field of piping design and project engineering.
 - Motivation to pursue specialized training or certification in piping engineering.
-

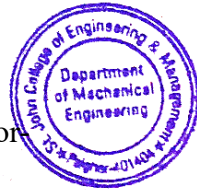

Conclusion:

The seminar conducted by **Mr. Parag Kundaickar** was highly informative and practical. It effectively enhanced the knowledge of mechanical engineering students, especially those interested in design, fabrication, and installation of piping systems. The department sincerely thanks Mr. Kundaickar for his time, expertise, and valuable contribution to student learning.

SWOT Analysis of the Event:

Strength	Weakness	Opportunity	Threats
Real-world insights from an entrepreneur alumnus. Highly interactive and motivating session for SE and TE students.	Limited seating restricted broader participation.	Potential collaboration for student projects and internships at 3Ds Printshop.	Time constraints limited deeper technical discussion.

Feedback Analysis:

- The session was informative and engaging, especially the real-life applications and business insights shared by the speaker.
- Students appreciated the practical demonstration and clarity about the future scope of 3D printing and additive manufacturing.
- Interaction with an alumni entrepreneur inspired students to explore innovative career paths and consider entrepreneurship in technical fields.

Introduction

On January 30th, 2025, ASCAI had the privilege of hosting a guest lecture by Mrs. Sneha Yadav, Assistant Professor at Vidyavardhini College of Engineering and Technology. The lecture, titled "**Demystifying Machine Learning: Concepts to Real-World Applications**," was an insightful session that provided a comprehensive understanding of machine learning (ML) and its impact in various domains. The session commenced at 10:30 AM with Devang Vartak, President of ASCAI, warmly introducing Mrs. Sneha Yadav to the class and officially handing over the session to her.

Key Insights:

Mrs. Yadav began with an **introduction to Machine Learning**, explaining its definition as a subset of artificial intelligence (AI) that enables systems to learn and improve from experience without being explicitly programmed. She emphasized the importance of ML in modern technology, highlighting its role in automating tasks, optimizing processes, and deriving meaningful insights from vast amounts of data.

She outlined the **key contents of ML**, such as data preprocessing, feature selection, and model building, and elaborated on its **real-world applications** in industries like healthcare, where it aids in diagnosis and personalized medicine; finance, for fraud detection and risk assessment; retail, for demand forecasting and recommendation systems; and transportation, with autonomous vehicles and route optimization. Examples were shared to demonstrate its transformative potential in solving complex problems efficiently.

Moving on to **future trends in ML**, Mrs. Yadav highlighted advancements such as explainable AI, which focuses on making ML models transparent and interpretable; AutoML, which automates the process of applying ML to real-world problems; and reinforcement learning, a paradigm that enables systems to learn through trial and error, often used in robotics and gaming.

The session also delved into the **foundations of ML**, focusing on the importance of high-quality data as the backbone of effective machine learning systems. Mrs. Yadav discussed features, training and testing processes, and the three primary categories of ML algorithms:

- **Supervised Learning:** Involves learning from labeled data and includes algorithms like regression (predicting continuous outcomes) and classification (categorizing data into discrete classes). Examples include predicting house prices and detecting spam emails.
- **Unsupervised Learning:** Deals with unlabeled data and includes clustering algorithms, which group data based on similarities. Applications include customer segmentation and anomaly detection.
- **Reinforcement Learning:** Focuses on decision-making in dynamic environments using feedback-based learning systems. It is used in robotics, gaming, and optimizing supply chains.

St. John College of Engineering and Management

Autonomous Institute

(A Christian Religious Minority Institution)

Approved by AICTE and DTE, Affiliated to University of Mumbai / MSBTE

DTE Code : 3218 AICTE Permanent ID : 1-4790201

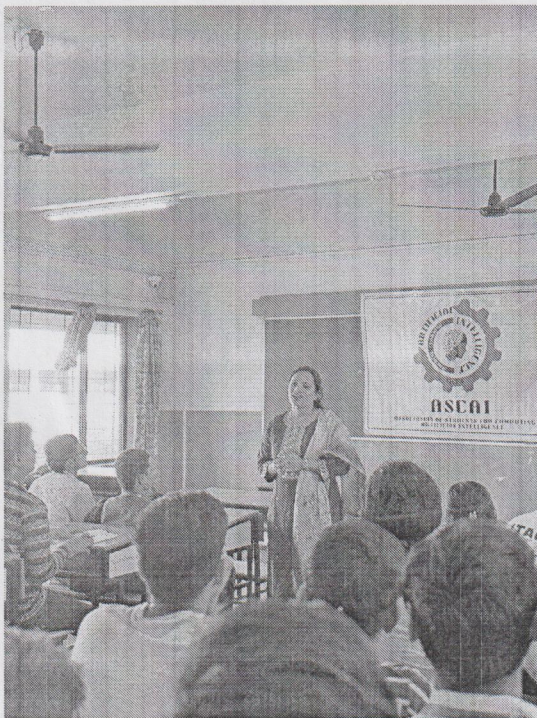

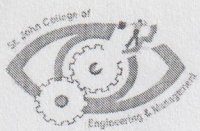

NAAC Accredited with Grade 'A+', Three Programs NBA Accredited

For each type, Mrs. Yadav provided descriptions, examples, and common applications, ensuring the content was relatable and easy to understand. She further illustrated these concepts through **practical examples**, including the use of linear regression for **predicting house prices** and the application of algorithms for **fraud detection** in financial systems. Code snippets were shared to give students a hands-on understanding of implementing these algorithms.

Mrs. Yadav concluded the technical discussion by outlining **steps to implement ML models**, which include defining the problem, collecting and preprocessing data, selecting and training the model, evaluating its performance, and deploying it in real-world scenarios. She emphasized the iterative nature of this process and the importance of continuous learning and improvement.

The session ended at 12:00 PM with a vote of thanks by Devang Vartak, expressing gratitude for the valuable insights and engaging delivery. The lecture was a great success, inspiring attendees to explore ML further and consider its implications for their academic and professional growth.

Conclusion:

In conclusion, the guest lecture by Mrs. Sneha Yadav was an enlightening and thought-provoking session that provided attendees with a strong foundational understanding of machine learning and its vast applications across industries. Through clear explanations, practical examples, and engaging discussions, Mrs. Yadav successfully demystified complex ML concepts, making them accessible and relevant to students. Her insights into future trends, real-world case studies, and hands-on code demonstrations further enriched the learning experience, sparking curiosity and interest in the field. The session not only deepened participants' knowledge of machine learning but also encouraged them to explore its potential in solving real-world challenges. ASCAI extends its sincere appreciation to Mrs. Yadav for her time and expertise, and we look forward to more such inspiring sessions that bridge the gap between theoretical knowledge and practical applications in artificial intelligence and machine learning. With Gratitude,

Devartak

Peer to peer learning {}
For TY COMPS Diploma Students

LEAD BY:
Devang Vartak (Btech AIML)

- Date :- 17 February 2025
- Time :- 10:00 AM to 11:00 AM
- Venue :- TY Comps(Diploma)

Introduction

On February 17th, 2025, a peer-to-peer session on **Advanced Web Development a peer-to-peer session** was conducted by Mr. Devang Vartak from ASCAI for the Diploma students. The session, which commenced at 10:15 AM, aimed to provide insights into modern web development technologies and practices. The primary focus areas included JavaScript frameworks, Android Studio, databases, API integrations, Dart, and current industry trends. The interactive session allowed students to understand real-world applications and gain hands-on experience with various technologies.

Key Insights:

Mr. Devang Vartak shared various key insights to help students develop a deeper understanding of advanced web development concepts. He explained the role of JavaScript frameworks in modern development, comparing Vanilla JavaScript, React.js, Angular.js, and Vue.js. React.js, known for its component-based architecture, is widely used for single-page applications (SPAs), while Angular.js provides a structured MVC framework suitable for large-scale enterprise applications. Vue.js, being lightweight and flexible, is often chosen for projects that require easy integration. He demonstrated these frameworks with real-world website examples to showcase their impact on user experience, performance, and maintainability.

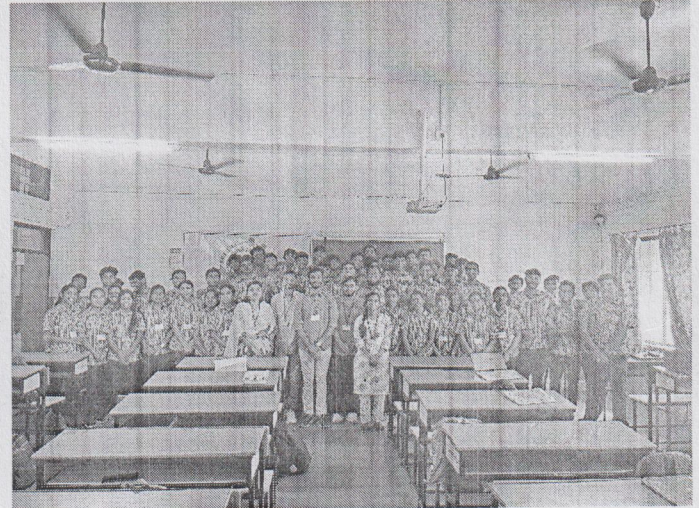

The session also introduced students to Android Studio, where Mr. Vartak explained the fundamentals of mobile app development. He walked through the setup of an Android project, the use of XML for designing user interfaces, and the integration of back-end services. Debugging techniques were also discussed to enhance application efficiency. Special attention was given to the importance of responsive design, adaptive layouts, and the advantages of using Kotlin for modern Android development. Real-world applications were presented to highlight the interaction between mobile and web platforms.

A crucial part of the session was dedicated to databases, where Mr. Vartak explained the differences between relational databases like MySQL and PostgreSQL and NoSQL databases such as MongoDB. He emphasized the importance of Firebase, a cloud-based solution known for real-time data synchronization and seamless integration with both web and mobile applications. A live demonstration of Firebase integration with a web app helped students grasp its practical implementation and benefits.

API calling and backend integration were also key topics of discussion. Mr. Vartak covered the fundamentals of RESTful APIs and GraphQL, explaining their differences and best use cases. He demonstrated various API request methods, including GET, POST, PUT, and DELETE, and introduced authentication techniques such as OAuth and JSON Web Tokens (JWT) to ensure secure data access. A hands-on coding example showed students how to fetch data from an API and display it dynamically on a web page, reinforcing their understanding of frontend-backend connectivity.

The session also covered Dart, a programming language developed by Google, which plays a significant role in Flutter for cross-platform development. Mr. Vartak explained Dart's syntax, efficiency, and how it simplifies mobile development by allowing a single codebase for both Android and iOS applications. A practical demonstration of a basic Flutter app showcased how Dart contributes to improved performance and smooth UI interactions.

To conclude, Mr. Vartak discussed the latest trends in web development, highlighting Progressive Web Apps (PWAs) as a hybrid solution that combines the best of web and mobile apps. He introduced serverless computing as a cost-effective solution for backend development, eliminating the need for dedicated servers. AI-powered chatbots and their role in improving customer engagement were also covered. Additionally, he touched on the significance of blockchain in web security and data integrity and explained how WebAssembly enhances browser-based application performance.

Conclusion: -

The session provided valuable insights into advanced web development technologies, equipping students with essential knowledge and practical skills. Mr. Devang Vartak's expertise and real-world examples helped students grasp complex concepts effectively. The interactive nature of the session allowed for an engaging Q&A segment, where students explored potential career opportunities in web development. This session served as a stepping stone for students to further explore and implement advanced web technologies in their projects and professional journeys.

Summary

Graduate in Artificial Intelligence and Machine Learning with strong expertise in SQL, Python, and data systems. Skilled in developing efficient solutions, data analysis, and machine learning applications.

Education

St. John College of Engineering and Management (SJCEM), Palghar	May 2025
B.Tech in Artificial Intelligence and Machine Learning	CGPA: 8.65
Vidyavardhini's Bhausaheb Vartak Polytechnic, Vasai	July 2022
Diploma in Computer Engineering	Percentage: 80.86%

Experience

Associate Software Engineer – LeanQubit Pvt. Ltd.	September 2025 – Present
- Developing and deploying vision-based deep learning models for industrial and enterprise applications.	
- Designing scalable ML pipelines using Kubeflow for model training, validation, and deployment.	
- Managing large-scale data storage and retrieval using MinIO for efficient ML workflows.	

Projects

LockOut: Real-Time Barbell Tracking System — <i>YOLOv8, MongoDB, Flask</i>	May 2025
Built a YOLOv8-based system for barbell tracking with 99.9% accuracy & log real-time data in MongoDB. Automated performance summaries via Excel export, reducing human error in tracking by 100%. Deployed a Flask dashboard for live lift classification, visual feedback, and performance history.	

Diabetic Retinopathy Detection using DL — <i>Python, Scikit-learn, Grad-CAM</i>	Nov 2024
Developed a deep learning pipeline using MobileNetV2 to classify retinal images into 5 clinical stages. Achieved 91.62% validation accuracy on a dataset of 3,000+ fundus images, using data augmentation and dropout regularization. Integrated Grad-CAM to generate region-specific heatmaps for improved model interpretability.	

Smart Video Analysis for Violence Detection — <i>OpenCV, TensorFlow, CNN, Flask</i>	May 2024
Trained a custom classifier using transfer learning on VGG16 to detect violent activity in via video streams. Processed annotated frames with OpenCV to enhance precision and lower false positives. Deployed the model in a Flask-based web app with frame-by-frame prediction and confidence score display. Validated the system on benchmark datasets, achieving 92% test accuracy with consistent performance.	

Skills

Technical Skills

Programming Languages: Python, SQL, R, HTML, JavaScript

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Tensorflow

Tools & Frameworks: SQL+, GitHub, MongoDB, VSCode, Firebase

Soft Skills: Communication, Teamwork, Problem Solving, Time Management, Leadership

Certifications

AI for Prognosis – Coursera	Mar 2025
AI for Diagnosis – Coursera	Jan 2025
Python Zero to Hero – Udemy	Nov 2024

Achievements

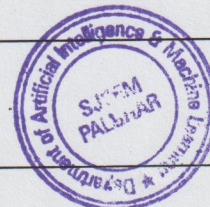

Semi-Finalist at I.D.E.A. Hackathon by HBSC x E3L	Jun 2025
1st Place – Imperia 2024 Intercollegiate Project Competition	Apr 2024

Responsibilities

President – Megaleio National level Tech Fest	2024–25
President – ASCAI (AIML Committee, SJCEM)	2024–25

Language Proficiency

English (Intermediate), Hindi (Intermediate), Marathi (Advanced)

Outcomes of the Session

The session conducted by Mr. Anvay Churi for Third-Year Diploma in Computer Engineering students on February 18th, 2025, from 10:00 AM to 11:00 AM, covered essential financial concepts. The key outcomes were:

- how to balance investments based on risk appetite.
- Learning the impact of Inflation and Interest Rates on financial planning.
- Exploring Equated Monthly Installments (EMI) and Debt Management strategies.
- Recognizing the importance of Budgeting and Saving for financial stability.
- Understanding various investment options such as Fixed Deposits (FDs), Mutual Funds, and Stocks.
- Analyzing a real-life investment option for decision-making.

Introduction

On February 18th, 2025, a peer-to-peer session on **Entrepreneur and Monetisation Analysis a peer-to-peer session** was conducted by Mr. Anvay Churi from ASCAI for the Diploma students. Financial literacy is a crucial skill that helps individuals make informed decisions about savings, investments, and debt management. To equip students with practical financial knowledge, the session aimed to introduce students to fundamental financial concepts, market trends, and personal finance management. By understanding these topics, students can make better financial choices in their personal and professional lives.

Key Insights:

The session covered a wide range of financial concepts, starting with the **Time Value of Money (TVM)**, which explained how money's worth changes over time due to interest and inflation. Students learned that investing early can significantly impact long-term financial growth.

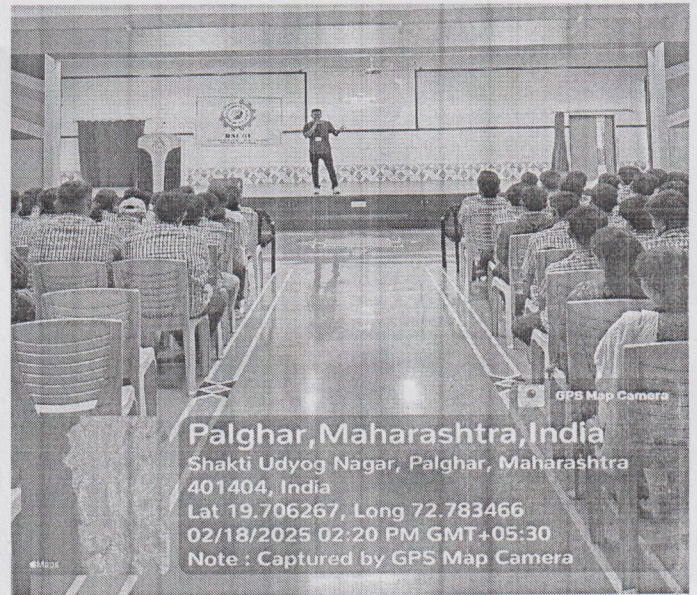

Next, the discussion on **Risk and Return** highlighted how higher-risk investments often yield higher returns, whereas lower-risk options provide stability. The speaker emphasized the need for a balanced investment strategy.

Inflation and Interest Rates were explained in the context of real-life scenarios, showing how rising prices affect savings and investments. The session also covered **Equated Monthly Installments (EMIs)** and **Debt Management**, stressing the importance of responsible borrowing and loan repayments.

Another key topic was **budgeting and saving strategies**, where students were introduced to the **50/30/20 rule** for managing income efficiently. The speaker then explored different **investment options**, including **Fixed Deposits, Mutual Funds, and Stocks**, explaining their benefits and risks.

The session also delved into financial markets, distinguishing **stocks, bonds, commodities, and derivatives**. Real-world market examples helped students understand how these instruments function. A **candlestick graph of a real-life stock** was analyzed, demonstrating how investors use technical analysis for trading decisions.

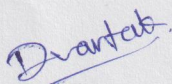

Finally, the importance of maintaining a **good credit score** was emphasized, highlighting how it affects loan approvals, interest rates, and financial credibility.

Conclusion: -

The financial awareness session provided students with valuable knowledge to make informed financial decisions. By covering essential topics like investment strategies, debt management, and market analysis, the session helped students develop a solid foundation in financial literacy. The insights gained will assist them in planning their finances effectively, making sound investments, and avoiding common financial pitfalls. Such sessions are essential for young professionals, as they prepare to enter the workforce and manage their financial responsibilities efficiently.

EDUCATION

St. John College of Engineering and Management (SJCEM) B.E. in Artificial Intelligence and Machine Learning, <i>CGPA: 7.52</i>	Dec 2021– Jul 2025
Motilal Kanji College Higher Secondary Certificate <i>Percentage: 77.17%</i>	Aug 2019– Feb 2021
DON BOSCO School Secondary School Certificate <i>Percentage: 85.60%</i>	Jun 2018– Mar 2019

SKILLS

Programming Languages:

Python, SQL, HTML, JavaScript, CSS

Data Analytics:

Power BI, Machine Learning, Data Analysis, Jupyter Notebook

Machine Learning:

Regression, Classification, Clustering, Decision Trees, Random Forest, SVM, KNN, Naive Bayes, Model Evaluation, Feature Engineering

Deep Learning:

Neural Networks, CNN, RNN, LSTM, Transfer Learning, TensorFlow, Keras, PyTorch

Employability Skills:

Leadership, Team work, Time management, Adaptability, Team Management

INTERNSHIP

Jetking – Cybersecurity	Nov 2024 - Dec 2024
Gained hands-on experience in network security, ethical hacking, threat analysis, and cybersecurity tools like Wireshark and Kali Linux.	

PROJECTS

Environmental Sound Classification and Wildlife Monitoring (CNN)

- Built a deep learning model using Convolutional Neural Networks (CNN) to classify environmental sounds for real-time wildlife monitoring and conservation.

Health Monitoring and Gym Management System

- Designed a platform to track users' health metrics and manage gym memberships, schedules, and workout plans.

IoT-Based Automatic Energy Meter Reader and Bill Generator

- Developed a smart energy monitoring system using IoT to automatically read energy consumption and generate monthly bills.

Solar Power Analysis

- Developed Analyzed solar energy systems focusing on efficiency, cost, technology trends, and policy impacts for clean energy adoption.

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

Association of Students for Computing Artificial Intelligence (ASCAI)

(A.Y. 2024-2025)

Report on the Introduction to Internship

Date: March 25th, 2025

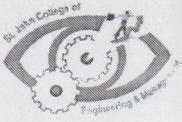

Time: 11:30 AM – 12:30 PM

Speaker: Mr. Happy Ajay Sanghani, Founder, SaSarjan Group

Organized by: ASCAI (Association of Students of Computer and Artificial Intelligence)

Outcomes of the session:

1. 300 Hours of Practical Experience in a real-world social impact environment.
2. Exposure to Industry Dynamics within the non-profit and social entrepreneurship sector.
3. Understanding Project-Based Work through assignments customized to personal interests.
4. Enhanced Communication and Team Skills via virtual collaboration with diverse teams.
5. Increased Awareness of Grassroots Challenges and Solutions in infant welfare.

Introduction

This report highlights the internship opportunity with **SevaPremi**, a socially driven organization committed to recognizing unsung heroes and supporting impactful initiatives, particularly in child welfare. The internship is aligned with the "Save a Baby" committee—an initiative aimed at protecting and nurturing infants in need. The report outlines key insights, expected outcomes, and a broader understanding of social start-up environments.

Key Insights

The internship at SevaPremi offers a comprehensive and immersive experience for individuals interested in the workings of grassroots social enterprises. Interns will gain first-hand exposure to how grassroots social initiatives are structured and managed, with insights into project design, community engagement, and resource mobilization.

A notable aspect of the program is its flexibility and personalization. The internship is tailored to align with the intern's personal interests, enabling them to make meaningful contributions based on their unique skills and passion areas.

Interns will also explore the challenges of social start-ups, such as:

- Funding limitations
- Regulatory hurdles
- Scalability concerns

These obstacles form a crucial part of the learning journey, helping interns appreciate the complexity and resilience required to run a social venture. Another key learning area is the value of networking and storytelling. SevaPremi's model highlights the power of human stories in raising awareness and driving change. Interns will discover how storytelling can be strategically employed as a tool for social advocacy.

Lastly, since the internship is conducted remotely, interns will gain hands-on experience with virtual collaboration tools, enhancing their skills in digital communication and project management used in today's modern workplaces.

Conclusion

The session on the internship opportunity with SevaPremi provided valuable insights into the structure and purpose of grassroots social enterprises, particularly those focused on child welfare through initiatives like "Save a Baby." Attendees gained a clearer understanding of what such an internship entails, including exposure to project design, community engagement, and the practical challenges social start-ups face—such as funding, regulations, and scalability. The session also emphasized the importance of storytelling in social advocacy and highlighted the flexibility of the internship in aligning with individual interests. Additionally, it shed light on the growing relevance of remote work tools and digital collaboration in modern professional settings. Overall, the session was informative and inspiring, offering a comprehensive overview of what to expect from a socially driven internship experience.
